	2. I would appreciate any action you could take to have 25X1A9A summons delayed until after 15 May 1956 as he is the only engineer I have
	available to maintain the existing telephone systems and to make new 25X1 installations. It will take approximately six weeks to train another engineer to assist him in these duties.
25X1A9	3. I presently have working with but he is sch25X1A9A duled for training at Andrews Air Force Base in preparation for his assign-
